

ATKINS, Borg-Warner **Silver Steel** Complete Line of **QUALITY HAND SAWS**

Only **ATKINS** gives you these
famous **QUALITY FEATURES**

① **SILVER STEEL**

Based on metallurgical discoveries and specifications developed throughout a century of saw manufacturing progress.

② **PERFECTION HANDLE**

A natural grip with no wrist strain. You get more cuts . . . truer, straighter cuts . . . with less effort.

③ **BWA COATING**

Insures long-lasting, lustrous finishes. Fingerprints wipe right off! Stock damage from rust or salt air is eliminated. Oil and grease free.

NO. 51—SKEW BACK

Silver Steel construction. Taper ground. Apple-stained, hardwood Perfection Handle trimmed with nicked screws and medallion. High gloss Damaskeen finish, ribbon edge. BWA coated. The oldtimer's favorite!

Length	Cut-Off Points	Rip Points	Width Point	Width Butt	Weight
20"	10	—	1½"	5¼"	15 oz.
26"	8	—	2½"	6¾"	1 lb.-9 oz.

NO. 65—STRAIGHT BACK

Preferred by experienced carpenters and craftsmen who appreciate high quality tools. A Fast Seller!

Silver Steel construction. Taper Ground. Apple stained, full-carved, hardwood Perfection Handle trimmed with nicked screws and medallion. High gloss Damaskeen finish, ribbon edge. BWA coated.

Length	Cut-Off Points	Rip Points	Width Point	Width Butt	Weight
16"	10	—	1¾"	4¾"	11 oz.
20"	10	—	1½"	5¼"	15 oz.
26"	8, 10, 12	5½	1¾"	6½"	1 lb.-11 oz.

ATKINS TAPER GRIND

Atkins Taper Grinding is precision controlled to produce a gradual tapered thickness from the cutting edge to the back of the blade. Resembling an inverted wedge, the blade follows easily into the kerf. Excessive set is not required; there is no buckling or bending of the blade.

Atkins Taper Grind should not be confused with saws ground an even thickness at the tooth edge and simply dubbed off thinner at the back.

NO. 400—STRAIGHT BACK

Made for those who want only the finest. The combined experience of generations of craftsmen is embodied in the design, balance, and quality of this distinguished saw.

Silver Steel construction. Taper Ground. Needs little set for fast, free, easy cutting. American Black Walnut Perfection Handle, trimmed with nicked screws and medallion. Mirror finish, ribbon edge. BWA coated.

Length	Cut-Off Points	Rip Points	Width Point	Width Butt	Weight
26"	8, 10, 12	5½	1¾"	6½"	1 lb.-13 oz.

NO. A-1—STRAIGHT BACK

A quality saw at lowest price. Special Steel construction. Taper Ground. Clear finish, carved hardwood, Perfection Handle with nicked screws and medallion. Set and filed. High polish. BWA coated.

Length	Cut-Off Points	Rip Points	Width Point	Width Butt	Weight
16"	10	—	1¾"	4¾"	10 oz.
20"	10	—	1½"	5¼"	1 lb.
26"	8	—	1¾"	6¼"	1 lb.-10 oz.

ATKINS, Borg-Warner MECHANIC-KUT CIRCULAR SAWS

ATKINS Mechanic-Kut Circular Saws are packaged with extra bushings for optional arbor sizes. For example, on saws of 6, 7 and 8" diameters, the hole size is $\frac{5}{8}$ " with a $\frac{1}{2}$ " bushing furnished. Optional bushings eliminate duplicate inventories and

reduce possibility of error in customer's specifications. ATKINS Mechanic-Kut Saws are available for use on power tools of leading manufacturers, built to exact specifications in arbor shapes and sizes (as shown in ATKINS complete catalog).

No. 6-A Combination

Specially tensioned for narrow kerf and even edges. Set and hand-filed for rip or crosscut. Diameters: 6", 6 $\frac{1}{2}$ ", 7", 8", 9" and 10". Holes: $\frac{1}{2}$ ", $\frac{5}{8}$ ", $\frac{3}{4}$ ".

No. A-8 Cut-Off Saw

Precision set teeth, bevel filed for smooth, easy feed cutting across the grain. Diameters: 6", 7", 8", 9" and 10". Holes: $\frac{1}{2}$ ", $\frac{5}{8}$ " and $\frac{3}{4}$ ".

No. A-37 Mitre Saw

One of the finest saws made for mitre cutting. Rips, cross-cuts and mitres with ease. Set and filed. Diameters: 6" to 10". Holes: $\frac{1}{2}$ ", $\frac{5}{8}$ " and $\frac{3}{4}$ ".

No. 3 Dado Set

Six cutter blades permit groove cutting in 9 different widths. 6" diameter, $\frac{5}{8}$ " holes. Includes 2 outside cutters and 4 inside cutters.

ATKINS HACKSAW FRAMES AND BLADES

NO. 10—ATKINS' FINEST HACKSAW FRAME

Corrosion-proof, polished nickel frame with 3 $\frac{3}{8}$ " throat, adjustable for 10" or 12" blades. Yellow plastic handle. Blade holding bolts are adjustable to four positions. Front bolt is equipped with safety clip and rear bolt has wing nut and locking nut. Each frame is individually packed and equipped with ATKINS blue lacquered steel blade. Weight, 1 $\frac{3}{4}$ lbs.

NO. 15—ATKINS' NEW TUBULAR FRAME

Fine looking, well balanced frame of tubular steel, featuring the popular knuckle-guard design and blue acetate handle. Frame is polished chrome on nickel with 4" throat, adjustable for 10" and 12" blades. Blade bolts have safety clip and star-wheel locking nut. Adjustable thumb rest for 2-hand use. Individually packed and equipped with ATKINS blue lacquered steel blade. Weight, 1 $\frac{3}{4}$ lbs.

ALSO: No. 111 Medium Priced Popular Frame—Made for general purpose home use. Bright nickel frame with 3" throat. Open pistol grip design; adjusts for 10" or 12" blade.

TUNGSTEN—HIGH SPEED—ALL HARD

For cutting hard, extra tough steels and highly abrasive materials, these Silver Steel blades are unexcelled. They cut easier and hold cutting edges longer; should not be confused with cheap, short-life blades. Furnished in Raker Set and Wave Set teeth.

MOLYBDENUM—HIGH SPEED—FLEXIBLE BACK

Of the same quality as ATKINS Silver Steel Molybdenum—High-Speed—All Hard blades, but with a flexible back for use in limited space or wherever twisting or cramping of the blade may be expected. Has that extra "give" to hold breakage to a minimum.

Furnished in Raker Set and Wave Set teeth.

MOLYBDENUM—HIGH SPEED—ALL HARD

Silver Steel alloyed with molybdenum gives these blades strength and cutting qualities ideal for ferrous and nonferrous materials. General purpose blades of this calibre are excellent stock items.

Furnished in Raker Set and Wave Set teeth.

STANDARD—FLEXIBLE BACK—HARD EDGE

You'll find it hard to keep these blades in stock! An inexpensive blade, heat treated and carefully made to give easy, clean cutting and excellent service. Priced to compete with blades that are simply cold steel stamped. Furnished in Raker Set and Wave Set teeth.
